KLAPP - Skin Care Science made in Germany

## Premium-level professional skin care and beauty products

---

Expertise, combined with quality: The essence of beauty. We have been creating exceptional professional skin care and beauty products for decades. Our work has always focused on you, the beautician: Everything KLAPP Cosmetics does begins and ends with the treatment at the beauty salon.

With the extensive KLAPP Cosmetics range of quality products, you always offer your customers the optimum, premium-level of treatment and care.

### **Award-winning quality products**

KLAPP Cosmetics is one of the most renowned industry experts when it comes to ground-breaking products and active ingredients for in-salon as well as home treatments. They are innovative and highly effective – aspects that have already won KLAPP Cosmetics numerous national and international awards.

As beauty and wellness specialists, we share your goal of meeting everyone's individual beauty product needs in an innovative way, with a precision that inspires confidence. This has made us, and continues to make us, pioneering and leading in our industry.

## Innovativeness born from passion

---

As an enthusiastic beauty and skin care specialist, KLAPP Cosmetics views itself as a passionate pioneer in the world of beauty, and applies particularly high „made in Germany“ standards when it comes to innovativeness and quality.

When we develop our products, we focus particularly on translating the latest research results into absolutely innovative beauty and skin care products. Ongoing market analyses and the utilisation of the latest research and development findings guarantee a portfolio of ground-breaking products with effective, high-tech active ingredient combinations.

Quality management at the highest level: Meticulous quality assurance procedures throughout all stages of the production process also guarantee a high level of product safety and quality.

## An inspiring concept of innovations

---

Cosmetics are always a matter of trust – that is one aspect that will never change. We are driven by innovation and effective results, and aim for quality and aesthetics. Add your qualified skills to the mix, and we will jointly create an exclusive feeling of well-being that goes far beyond outstanding success at the salon.

The in-salon beauty treatment is complemented by a perfectly matching home treatment concept for long-term care.

# Resist Aging

## A Classic

Skin structure optimisation and effective wrinkle depth reduction thanks to vitamin A

KLAPP Cosmetics has developed this extensive range with the active ingredient vitamin A (retinol) to combat the skin's natural ageing process. Vitamin A is of major importance for the skin's structure and function. It influences the production of collagen and the enzyme activity, and has a positive effect on the skin's repair mechanisms.

Using the products in this outstanding range promises a fresher and more supple skin.

## Hyaluronic Multilevel Effect

Our Multiple-Effect Hyaluronic Products contain various different sizes of hyaluronic acid molecules. This permits the active ingredient to penetrate deeply into the skin layers, where it can then develop its effect. Thanks to its outstanding moisture-binding properties, hyaluronic acid increases the moisture depots in the various different skin layers and works like an intensive filler that smoothes wrinkles. Besides this moisture-binding and line filling effect, hyaluronic acid also promotes the stimulation of cell renewal as well as the skin's inherent protection mechanisms against harmful environmental factors and free radicals. It stabilises the fibres of the elastin and collagen and stimulates the production of new fibres.

### Day & Night Cream

## ASA Peel®

High performance conditioning treatment, promotes skin regeneration

The cornified layer of the skin becomes increasingly thicker as we get older, and the skin loses its fine texture; wrinkles become deeper and the lower cornified layers receive fewer nutrients. KLAPP Cosmetics developed ASA PEEL® to combat this process. Products that contain fruit acids peel off the top layer of the skin. This effectively reduces any wrinkles, boost the production of collagen and elastin and stimulates the nutrient supply.

Care Cream

30 ml Art. No. 1840

Reduces wrinkles, pigment spots and small irregularities.
